

Discover the power of the Teradata Vantage – Analytics Database 17.20

Learn about the new analytic functions in the 17.20 release.

A few examples:

- TD_GLMPerSegment: Trains a whole data set by partitioning, and creates a single model for each partition.
- TD_GLMPredictPerSegment: Predicts target value (regression) and class label (classification) for test data using a corresponding GLM model trained using TD_GLMPerSegment.
- TD_TargetEncodingFit: Generates hyperparameters for use by TD_TargetEncodingTransform.
- TD_TargetEncodingTransform: Uses the hyperparameters generated by TD_TargetEncodingFit to encode categorical values.

With improved connection times, updated parameters and functions, parallel distribution of parquet files, and many more new features, version 17.20 of Teradata Vantage will up your analytics game.

ClearScape Analytics Experience Now Available

ClearScape Analytics Experience now available for public preview.

It is a fully functional, tiny platform edition of Teradata Vantage with ClearScape Analytics for functional testing and experimentation. Use a web browser to step through 70 built-in business and analytic demos using data we provide on the cloud or you can import your own, non-sensitive data for experimentation. The platform is public internet facing so you can connect your own BI, ETL, ML, AI, or SQL GUI or exchange data with cloud provider tools. It is a single user platform you create and have full control. If you mess up, delete and create another.

Through this you gain access to:

- Demos with ClearScape Analytics - advanced analytics and AI/ML capabilities to solve business problems
- A 30 GB Vantage database that can be used with BI/ETL and SQL GUI tools
- Sample data for use with demos and your own tools

Teradata Virtual User Group Sessions On Teradata University

The Customer Success team proudly presents User Group Webinars across regions live!

The Customer Success team at Teradata invites you to connect with Teradata on various topics each month by joining our new User Groups. You can view the details in a workspace in **Teradata University Workspace**.

Recordings of the recent sessions available on Teradata University:

1. **Teradata VUG: DBA - TD17.20 Performance Features**
2. **Teradata VUG: Data Engineer - Advanced dbt on Teradata**
3. **Teradata VUG: TD 101 - How Does Teradata Work?**
4. **Teradata VUG: Data Scientist - Better Together: SAS and Teradata**
5. **Teradata VUG: TD 101 - Diving Deeper: Where Can You Go to Learn More?**
6. **Teradata VUG: Data Scientist - Better Together: Teradata and Azure ML**

Upcoming LIVE Sessions :

1. **Teradata VUG: DBA - Data Mover – Optimizing Workloads**
2. **Teradata VUG: Data Engineer - Introduction to Airbyte**
